

GIVE A HAND.CH

Give a Hand.ch is an association empowering migrants with limited financial resources. By means of information, advice, accompaniment and (intercultural) translation, we provide our clients with tools that facilitate their orientation in everyday life, but also within the Swiss „administrative jungle“, e.g. within the asylum system.

The association's advisory and support services include:

- Individual case specific information and advice on questions connected to letters, invoices and other official correspondence;
- Individual case-specific advice on questions concerning Swiss asylum law;
- writing letters such as requests for financial support, appeals, inquiries, etc. or filling in forms, e.g. application forms for housing, course enrolment, marriage preparation procedures, etc.;
- Support of (asylum) social services in facilitating clients' everyday lives (as agreed beforehand);
- Accompaniment to important appointments (if necessary with a translator);
- Support communities with their concerns, e.g. campaigning, establishing press contacts and preparing rallies.

Initial appointments may be arranged at short notice by telephone or e-mail. Please let us know if a translator is required for better communication.
